A Presentation on Basic Astro Photography

From this months newsletter (if you have already read it) you will see, we can all do Astro Photography, even if you only have a mobile phone with a basic camera.

Some of the pictures members are taking with the most basic equipment, £35 telescope and a mobile phone are amazing !

You can spend a fortune on this subject or chose to not spend a fortune the choice is yours. Ether way you will be surprised what you can achieve.

Q&A on Astro Photography
